# ASSEMBLY RESOLUTION.

## Providing for conference With the S. P.

Introduced into the House by C. D. Van Duzer.

WHEREAS, We, the members of the Nevada Assembly of the twentieth session of the Nevada legislature, recognize in the changed political and financial conditions of the State an opportune time for inaugurating an industrial development in Nevada based upon the sovereign rights of the people, retrenchment in the management of State affairs, reduced taxation and the natural undeveloped resources of the State, whereby our population may be increased, taxation reduced, the irrigation problem solved and large industrial enterprises inaugurated, all of which will result in the material prosperity of the State of Nevada, and

WHEREAS, We recognize the fact that in order to attract population to our State, to stimulate industrial enterprises and secure capital for investment in Nevada, that the question of transportation and taxation must be wisely and intelligently solved; that, in order to secure population, we should have the advantage of a low passenger rate and a homeseekers' colonist rate, and, in order to secure both a desirable population and capital for investment, we must have a low rate of taxation, and a rate that is not prohibitive of industrial development; and

WHEREAS, We, as a State, today offer a magnificient opportunity for the investment of capital in our rich mineral deposits of gold, silver, copper, iron and other minerals, which we cannot develop without capital and which capital cannot develop without favorable railroad rates and encouragement in the way of a low rate of taxation; and offer in our fertile and rich agricultural valleys magnificent opportunity to the homeseeker; and possess the potentiality of a great state needing only low fares for homeseekers, low freight rates for our ores and agricultural products, and a low rate of taxation which will stimulate the investment of capital in our mines, the promotion of storage reservoirs and the general upbuilding of our State; and

WHEREAS, We recognize as the most important industrial problem before the people of the State of Nevada the question of transportation and the relation between the people of the State of Nevada and the railroad, and that in its solution lies the solution of all the other industrial problems in Nevada, and that a mutual co-operation between the people of the State and the railroad at this time must be of mutual advantage in a complete harmony and co-operation of interests; and

WHEREAS, We recognize in a railroad a factor not only of civilization but an influential factor in state building and local industrial development, and being aware that railroad systems by liberal policies create great cities and build up great and populous states, and as we have seen the benefits of such policies in the building up of Washington, Wyoming, Idaho, Montana and Colorado and other western states, where low rates for passengers and freights and liberal policies by railroads have built up populous states and powerful commercial cities; and

WHEREAS, Nevada is just as rich in undeveloped resources, natural wealth and possibilities and her people as energetic and patriotic as those of other western states, needing only the assistance of a generous railroad policy to make her a great State; and

WHEREAS, For many years the Southern Pacific railroad has pursued a policy which we know to have been inimical to the best interests of the State, maintained high freight rates utterly prohibitive of the development of our natural resources, maintained a high passenger rate which has prevented colonists from settling here, discriminated against the State in her general policy, dominated our politics, antagonized our people and maintained a political agent in this State instead of maintaining a business bureau here to assist in building up a commercial development in Nevada, which policy has resulted in antagonism detrimental to the people and disadvantageous to the railroad; and

WHEREAS, The management of the Southern Pacific railroad has passed into the hands of men who have no personal interests or local prejudices but are actuated by a broad business sagacity and whose general policy is State development, State growth, the stimulating of infant industries and the cultivation of mutual business relations with the people; and

WHEREAS, Charles M. Hays, the new President of the Southern Pacific railroad, is purely a business railroad man and has the reputation of a man who has built up all the communities through which the road, under his management, has run, and as we welcome the new change and view with hope the new management as an augury of a new era of development in Nevada; therefore be it

Resolved, That it is the sense of this Assembly that the Committee of this body, which is shortly to visit the management of the Southern Pacific in San Francisco, be instructed to express to Mr. Chas. M. Hays their hope that the relations between the railroad and the people of Nevada hereafter be upon the broad basis of business, and not upon political combinations, and to assure Mr. Hays that if the people of Nevada can receive any relief from the present and past intolerant conditions through compromise and concession, that the people of Nevada will pledge their best efforts to guarantee the railroad immunity from unjust and unwise legislative action; and it is further

Resolved, That it is the sense of this Assembly that our Committee go, not as supplicants on bended knees, but as the representatives of a sovereign people, conscious of past wrongs and intelligently presenting their grievances and firmly demanding their rights; and be it further

Resolved, That their Committee and a Chairman, to be named by the Assembly Committees for their Committee, be requested to present the views of the Assembly specifically to the management of the Southern Pacific, upon the following lines:

1. The history of the past struggle between the people of Nevada and the Southern Pacific Railroad under the Huntington policy.
2. The hope which the people of Nevada entertain from the new management in the way of relief and in a co-operative policy which shall build up the State.
3. The desire of the people of Nevada at this time to co-operate with the railroad in building up the State to the advantage of both and to discuss with the railroad the following questions from the standpoint of the people of Nevada and to discuss with and to ask of the Southern Pacific relief as follows:

- (a) A local rate of three cents per mile in Nevada.
- (b) The advantage of a colonists and homeseekers' rate from Mississippi and Missouri River points to Nevada.
- (c) The question of freight rates.
- (d) The advantage of a terminal point in Nevada.
- (e) That on carloads of merchandise from the Eastern to Nevada points that said cars be dropped in Nevada less the return rate from tide-water points.
- (f) A special schedule rate on Nevada agriculture products.
- (g) A co-operation on taxation reform in Nevada.

Recognizing that the railroad is one of the largest individual corporate taxpayers in the State, the committee is instructed to urge upon the railroad the necessity of a reform in taxation in Nevada, and to assure the Company that there is no desire to discriminate against them in taxation, but that all taxpayers shall sustain their equal burden of taxation, and to urge upon the Company that a high valuation and a low rate will be of great advantage to the State, and will not affect the aggregate amount of their taxes in the long run, and will contribute to increased population in Nevada and enterprises being established which will add to the already large income from railroad business in Nevada; to seriously urge upon the Company the necessity of an equalization of taxes with a low rate, which is the only means by which capital and population can be brought into the State.

4. To discuss such other matters as may be of mutual interest to the people and the railroad; and be it further

Resolved, That this Committee from the Assembly report fully the result of their work subject to the ratification and approval of this body.

THURSDAY, FEBRUARY 21, 1901

COURAGE AND BRAINS.

Reference was made in the JOURNAL yesterday morning to a resolution passed by the Assembly setting forth the past relations of the State to the railroad and of the railroad to the State. There is published today in the paper for the information of the people the resolution in full.

The resolution contains strange reading matter to come from an Assembly in Nevada. When was it that a branch of a Nevada legislative body had the courage and manhood in it, to respectfully allude to the wrongs sustained by the people from the Central Pacific, now Southern Pacific Railroad Company? Never before has there been any mention made by a legislative body of the wrongs and oppressions received by our people from the corporations mentioned. The resolution sets forth in plain and dispassionate language some of the wrongs applied to the people, which is an index to the manhood so manifest in the present legislature.

When the JOURNAL mentioned the resolution yesterday the writer had no idea it was a short report of matters included in the resolution was given by a JOURNAL reporter that gave a cue to what was then said.

When the work embodied in the resolution was received in full it was a surprise. The matters stated are set out in a clear, fearless manner without any of the style termed buncombe, which gives weight to expression, that demands audience through its simplicity. Among the matters referred to is taxation which requires adjustment upon an intelligent basis, which it is believed by the writer will not be secured at a rate fixing the levy for State purposes at a dollar, when a full cash valuation is required by law. It is about time our assessors were relieved from an absolute necessity to commit perjury to save the people from the effect of vicious legislation.

The levy for State purposes to the sum of a dollar commands obedience from county commissioners, and the levy is made. Should the assessors value property at its cash value there would be much more revenue than would meet the demands of the State and taxation would be exorbitant at the rate fixed.

The assessors, poor fellows, have been in a hole where it was anything but pleasant for them, as they were placed in a position to save the people from exorbitant taxation, where they had to violate the law, not to mention their oath of office, which is a terrible position for an honest man to be in; but they have chosen to save the people by making a low valuation, which has had the effect to make taxes appear high, which has been one of the most effective means of keeping people from settling in the State to make homes or to do business.

To notice the general excellence of the resolution in a particular or special manner would require more space than the JOURNAL has to give to the subject, but it may be said in addition to what has been expressed that fares and freights have been an additional cause to what appeared to be excessive taxation to turn away from the State those who were seeking homes, and at the close of over thirty years of general discrimination against Nevada made up chiefly in excessive fares and freights, our people have become to be despised by the people in other parts of the country who do not understand the causes and relations that have been upon the State.

The people have reason in at least two particulars to be encouraged respecting the future, as present appearances and facts are. First—The new management of the railroad system, so far as it has acted upon conditions that were upon the State, has made it evident that it is the intention to relieve it from a system of political slavery by removing boss rule. Second—They have assembled at Carson City a legislature composed of men who are not under the domination of a boss, but are independent men who make it a duty to direct attention to wrongs which have existed under boss rule in the State for a lifetime; who have made it a duty to come to the aid of the people by respectfully directing attention of the new management of the Southern Pacific system to wrongs which have in a special manner been directed against the people of Nevada, to their humiliation

## WEATHER PROPHECY

The Journal's Copyrighted  
Guess at Meteorological  
Conditions.

(Copyrighted, 1901, by W. T. Foster)  
St. JOSEPH, Mo. Feb. 21.—Last bulletin gave forecast of storm wave to cross continent 16 to 20, warm wave 15 to 19, cool wave 18 to 22.

Next disturbance will reach Pacific coast about 21, cross west of Rockies by close of 22, great central valleys 23 to 25, eastern States 26.

Warm wave will cross west of Rockies about 21, great central valleys 23, eastern States 25. Cool wave will cross west of Rockies about March 1, great central valleys 3, eastern States 5.

Storm wave will reach Pacific coast about 23, cross west of Rockies by close of 27, great central valleys 28 to March 2, eastern States March 3.

The disturbances of the last week in February belong to the high temperature wave and accompanying them will be the February thaw. This thaw will injure winter wheat and will probably affect prices of that cereal.

Not far from 22 February will reach its highest temperature and driest weather. Storms of unusual severity may be expected about that time. You will probably read of tornadoes between February 18 and 28. Following 22 a cold wave is on the program. Everyone interested in weather changes should possess a good thermometer and a good barometer. The latter gives the ever varying weight of the atmosphere and to some extent indicates what the weather will be immediately in the future. The following weather rules as indicated by the barometer are taken from Chase's elements of meteorology.

## THE STEEL CASE AGAIN

A Question Settled in Court is  
Re-opened in the Legislature.

The famous "steel case" matter has again been revived in the Legislature. This time the bill is presented by Mr. Peckham of Washoe.

The intent of the act is to compel the payment of a claim that has been rejected two or three times and on which the courts have also passed two or three times.

In the first instance, the Commissioners entered into a contract far in excess of their limits, as provided by law. This was questioned by the County Auditor who vetoed the illegal claims.

The commissioners passed the claim over the veto and the Auditor refused to pay; was mandamus, won his case, the matter was carried to the supreme court and, in every stage of the game, the action of the Auditor was sustained. Two years ago the matter was reviewed by the Legislature again, and was knocked out. Now it comes up again, before the present Legislature. The outcome of the matter will be watched with interest.

## THE LAW OR THE PEOPLE

Between the Two Causes There  
Will Be "Something  
Doing."

As matters are now shaping, this city will have a good riddance of bad rubbish before this crescent moon enters its second quarter.

The citizens of Reno have become thoroughly aroused. They will make an earnest endeavor to thoroughly purge this town of the maggots that have multiplied in its moral wound.

For reasons that will be announced later, the officers have deferred their raid upon the male tenderloiners. As the Good Book says: "They were bused with other things." The people of Reno with patience await to see what will eventuate. If too considerable time elapses there will be tar and feather for twenty. The citizens of Reno have done more than this in the past and their nerve will not fail them now.

## DEBATERS SELECTED

Those Who Will Represent the  
U. of N. in Inter-collegiate  
Debate.

Last evening in room 6 took place the second preliminary contest for the selection of a University debating team. The debate was held before a board of judges, Dr. Cushman presiding. The judges were Professors Lewers, Thurtell, Frandson and Kennedy and Mr. Lamb and Alfred Ayres.

The contest was a very creditable one. It was participated in by eight speakers, each of whom gave abundant evidence of real and careful preparation.

The decision of the judges was as follows: Miss Tillie Kruger, first place, Mr. J. O. McElroy, second place, Mr. E. D. Lyman, third place, Mr. George Springmeyer, alternate.

**Many Things Are Meant**  
By many dealers who claim to handle groceries. When they advertise GOOD GROCERIES no mention is made of PRICE. When price is mentioned QUALITY IS OVERLOOKED. Again, sometimes they dwell on the virtues of a LARGE STOCK. In this case no claim is made to carrying FRESH GOODS.  
We Preach the Three Plain Virtues of Groceries—  
**Quality Quantity Price**
